EMPLOYMENT HISTORY

2019 to present – Sevee & Maher Engineers, Inc., Cumberland, Maine, Environmental Technician and Industrial Hygienist
2012 to 2019 – JR Williams Contracting, Centralia, Illinois, owner/contractor

RELEVANT PROJECT EXPERIENCE AND QUALIFICATIONS

Mr. Williams has five years of experience in the Industrial Hygiene and Health & Safety field. He performs industrial hygiene and indoor air quality investigations for residential, commercial, and industrial sites, as well as hospitals, schools, and governmental facilities. Mr. Williams is knowledgeable in OSHA regulatory requirements, asbestos surveys, radon testing, hazard recognition, emergency response procedures, and contamination control techniques.

Prior to joining SME, Mr. Williams owned and operated a contracting firm through which he gained seven years of experience in residential and commercial building construction, construction management and oversight, and renovation, which is invaluable in his assessment of building hazards.

Mr. Williams's typical assignments have included:

- Providing oversight and project monitoring of environmental remediation projects;
- Providing consulting and inspections for numerous school districts under the U.S. Environmental Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA) asbestos-containing materials in schools rule;
- Performing asbestos inspections for renovations and demolitions under the EPA's National Emissions Standard for Hazardous Air Pollutants (NESHAP) standard;
- Conducting Hazardous Materials Assessments (HAZMAT) for industrial, commercial, and governmental facilities;
- Conducting industrial hygiene assessments for occupational exposure to various chemicals at commercial, light, and heavy industrial sites, manufacturing facilities, and hospitals; and
- Performing indoor air quality assessments and post remediation assessments for residential, commercial, industrial, schools, residential, and governmental sites.

Selected Project Experience:

- **Maine public school districts, various municipalities, Maine (2020 – present)** – Provided consulting, project oversight, project monitoring, and inspections in accordance with the U.S. Environmental Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA);
- **Renovation and Modernization Project, Confidential Client, Maine (2019 – 2021)** – Industrial Hygienist/Environmental Technician on \$31 million project supporting client’s demolition and renovation of approximately 2,000,000 square feet of office and commercial building space. Responsibilities included project monitoring, oversight, and documentation;
- **Building 13 Hazardous Material Abatement Project, Portsmouth Naval Shipyard, Alexandra Construction, Kittery, Maine (2021 – 2022)** – Provided consulting, project monitoring and oversight for asbestos abatement and the removal of paint containing lead, cadmium, and chromium during the renovation of Building 13;
- **P381 Hazardous Materials Assessments, Portsmouth Naval Shipyard/Cianbro, Middlesex, and Kiewit, Kittery, Maine (2022 - present)** – Provided industrial hygiene services including project monitoring, oversight, and documentation in support of the construction of Drydock 1; and
- **Hazardous Building Material, Indoor Environmental Quality, and Industrial Hygiene Projects, multiple residential, commercial, and industrial clients, throughout Maine (2019 – present)** – Provided hazardous materials assessments, indoor air quality assessments, asbestos inspections, consulting, project oversight, monitoring, and documentation.
