

INDUSTRIAL HYGIENIST/ENVIRONMENTAL CONSULTANT (1-3 Years Experience)

Sevee & Maher Engineers, Inc. (SME) has a new full-time position for an **Industrial Hygienist/Environmental Consultant** at our office in **Cumberland, Maine**.

Founded in 1985, SME is an accomplished team of over 100 experienced and talented professionals providing civil and environmental engineering and consulting, comprehensive design, construction, permitting, and industrial hygiene services for commercial, industrial, governmental, and residential clients throughout the United States. SME combines strong technical expertise with innovative technologies to provide cutting edge solutions for our clients.

Position Summary

The **Industrial Hygienist/Environmental Consultant** is responsible for a range of duties including indoor air testing, hazardous building materials inspection and sampling, abatement design specifications, and oversight of hazardous material abatement.

The ideal candidate will possess excellent communication skills to effectively interact with contractors, business clients, and homeowners. The candidate must also have a high level of organizational skills that are well suited to accurate management and documentation of large quantities of environmental samples and observations. A strong understanding of building systems and construction styles is helpful in understanding what building materials may be hazardous.

This position requires travel throughout the State of Maine and New Hampshire, with occasional overnight stays. This position involves working with and sampling potentially hazardous materials. Qualified candidates must be able to pass a physical and wear personal protective equipment, including a tight-fitting respirator, and work is done in various weather conditions. SME takes safety very seriously and expects all employees to comply with company safety standards and regulatory requirements. Safety training and appropriate environmental training and certifications are a plus but will be provided as necessary.

Required Skills and Qualifications

- B.S. in a physical science such as Environmental Science, Biology, Chemistry, Geology, etc., **or** a strong practical background in building systems and construction management.
- Ability to perform field work that includes working in the outdoors and various weather and environmental conditions, climbing ladders and working on elevated areas, wearing Personal Protective Equipment (PPE) such as full body coverings and a respirator, physically accessing confined spaces and other areas of buildings and working nights and weekends when needed.
- Experience with Microsoft Word and Excel, technical report writing, and data interpretation.
- Working with and interacting with clients and contractors to understand their needs, respond promptly to requests, and provide consistent support as needed.
- Effective oral and written communication skills are essential.

Working at SME

At the heart of SME is our culture which is friendly and down to earth. SME is large enough to offer a full range of services but small enough that everyone on our team makes a difference. SME supports and

encourages professional development and active participation with professional associations. Joining SME means becoming part of a group of dedicated professionals who enjoy doing meaningful work together.

Along with a collaborative work environment, SME offers:

- Work-life balance
- Hybrid work schedule
- Professional development and growth opportunities
- Intraoffice groups including hiking, hockey, and running
- Community involvement such as volunteer days and an SME sponsored road race team, and
- Annual company appreciation event, fall golf outing, regular social events, and more.

Compensation and Benefits

SME offers an excellent compensation and benefits package that includes:

- 100% company paid Medical, Life, and Long-term and Short-term Disability insurance
- Annual contributions to the enrolled employee's Health Savings Account (HSA)
- Paid vacation and sick time and 9 paid holidays per year
- Retirement plan comprising three components: a 401(k) plan with generous matching contribution; profit sharing; and a non-discretionary 3% of gross pay contribution, and
- Performance-based year-end bonuses.
