

PROJECT HYDROGEOLOGIST

Sevee & Maher Engineers, Inc. (SME) has a new full-time position for a **Project Hydrogeologist** with a master's degree or 3 to 5 or more years of experience. The position will be based at our headquarters in **Cumberland, Maine**, or at our **New Gloucester or Hampden, Maine** offices. Travel to other states is frequent and mandatory.

Position Summary

The **Project Hydrogeologist** will work as part of our Water Resources team and report to a company principal and several project managers. This position offers a rare career opportunity for the qualified candidate to work with a team to provide water purveyor clients with innovative solutions in the areas of wellfield supply; regulatory compliance; and well construction, maintenance, and rehabilitation under the guidance of a leading expert in wellfield management; and managing groundwater source of supply for the country's largest privately-owned water utilities. Assignments may also support other SME clients in a wide variety of industrial, municipal, and commercial projects throughout the Eastern U.S.

Your Impact

As an SME **Project Hydrogeologist**, you will:

- have a strong understanding of hydrogeologic principles,
- be self-directed with the ability to collect and manage field data, manage large databases, and conduct detailed data analysis,
- support the SME team in supply well construction, regulatory, maintenance, and redevelopment projects,

as well as:

- assist in the production of proposals, reports, permits, and bid packages, and
- communicate clearly and effectively.

Because the **Project Hydrogeologist** works closely with SME's multidisciplinary staff and frequently interacts directly with clients, regulatory agencies, and the public, your strong interpersonal and communications skills (written and verbal) are important. At SME, we take pride in building and maintaining positive long-term relationships with all stakeholders.

Required Skills and Qualifications

- Bachelor's degree in Geology or Hydrogeology, Environmental Engineering with a masters degree or 3+ years of experience in the environmental consulting business
- A deep understanding of physical and chemical hydrogeology
- Experience with well construction, maintenance, and redevelopment
- Extensive field experience,
- Proven experience and/or exposure to:
 - water well related concepts and projects including: overburden and bedrock stratigraphy and water yielding principals, well construction, pumping test performance and analysis, and basic water chemistry,
 - regulatory guidance and State and Federal water quality MCLs and MEGs is a plus, and
 - field work is required, and as such, experience in performing field activities is paramount.
- Excellent communication, organizational, technical, and report writing skills
- Ability to work independently

- Willingness to travel

Working at SME

Founded in 1985, SME is an accomplished team of more than 90 experienced and talented professionals providing civil and environmental engineering and consulting, comprehensive design, construction management and oversight, permitting, and testing services for commercial, industrial, governmental, and residential clients throughout the United States. SME combines strong technical expertise with innovative technologies to provide cutting-edge solutions to our clients' 21st-century challenges.

At the heart of SME is our friendly and down to earth culture. SME is large enough to offer a full range of services but small enough that everyone on our team makes a difference. There is room to choose your own path and pursue your passions, and each person is recognized for their contribution to our collective success. SME supports and encourages professional development and active participation with professional associations. Joining SME means becoming part of a group of dedicated professionals who enjoy doing meaningful work together.

Along with a collaborative work environment, SME offers:

- Work-life balance
- Hybrid work schedule
- Professional development and growth opportunities
- Intraoffice groups including hiking, hockey, and running
- Community involvement such as volunteer days and an SME sponsored road race team, and
- Annual company retreat, fall golf outing, regular social events, and more.

Compensation and Benefits

SME offers an excellent compensation and benefits package that includes:

- 100% company paid Medical, Life, and Long-Term and Short-Term Disability insurance
- Annual HSA contributions
- Paid vacation and sick time with 9 paid holidays per year
- 401k plan with generous matching contribution; profit sharing; and a non-discretionary 3% of gross pay contribution, and
- Performance-based year-end bonuses.
