

CHEMICAL / ENVIRONMENTAL ENGINEER

Sevee & Maher Engineers, Inc. (SME) has a new full-time position for a **Chemical / Environmental Engineer**. The position can be based at our headquarters in **Cumberland, Maine**, or in our satellite offices located in **Atlanta, Georgia; Chicago, Illinois; and Phoenix, Arizona**. Flexibility for remote work is offered from each of these locations.

Position Summary

SME is looking for a qualified, intermediate to senior engineer to join and grow our Environmental Compliance group. This is an exceptional opportunity for a motivated and experienced individual to contribute to our company, which is a respected leader in the field. The Chemical/Environmental Engineer, who reports to a principal of the firm, is responsible for assisting clients in achieving and maintaining compliance with federal, state, and local environmental regulatory requirements. You will apply your expert knowledge and skills to develop formal compliance plans, conduct multimedia compliance assessments, prepare environmental permit applications, and design pollution control processes.

Because the Chemical/Environmental Engineer works closely with SME's multidisciplinary staff and frequently interacts directly with clients, regulatory agencies, and the public, your strong interpersonal and communication skills (written and verbal) are important. At SME, we take pride in building and maintaining positive long-term relationships with all stakeholders.

Required Skills and Qualifications

- B.S. degree in Chemical or Environmental Engineering
- 7 to 15 years environmental consulting or industry experience
- Professional Engineer license preferred, but other relevant certifications will be considered
- Widespread experience and skills in consulting services to industrial clients, including:
 - Multimedia regulatory compliance auditing -- air quality, water, wastewater, and waste management
 - Environmental Management System design and auditing
 - Environmental permitting, including major and minor source air permitting
 - Pollution Prevention project design and implementation
- Development and presentation of environmental training programs
- A focus on air emission permitting; estimating air pollutant emissions; NSPS, NESHAP, and MACT compliance; and regulatory analysis and reporting is desirable. Experience with air dispersion modeling and AERMOD is a plus.
- Some domestic business travel to client sites is required.

- continued -

Working at SME

Founded in 1985, SME is an accomplished team of 80+ experienced and talented professionals providing civil and environmental consulting, comprehensive design, construction, and permitting services for commercial, industrial, governmental, and residential clients throughout the United States. SME combines strong technical expertise with innovative technologies to provide cutting-edge solutions for our clients. Despite the challenges faced by our industry due to the COVID-19 pandemic, SME remains busy, financially strong, and poised for growth. SME offers a unique opportunity for a motivated and experienced individual to excel as we expand the depth and breadth of our service offerings.

At the heart of SME is a culture that is friendly and down to earth. SME is large enough to offer a full range of services but small enough that everyone on our team makes a difference. There is room to choose your own path and pursue your passions, and each person is recognized for their contribution to our collective success. SME supports and encourages professional development and active participation with professional associations. Joining SME means becoming part of a group of dedicated professionals who enjoy doing meaningful work together.

Compensation & Benefits

SME offers an excellent compensation and benefits package. The company pays 100 percent of Medical, Life, and Long-Term and Short-Term Disability insurance, and annually contributes to each employee's Health Savings Account. We provide paid vacation, holiday, and sick time. SME's retirement plan includes three components: a generous 401k plan; profit sharing; and a non-discretionary 3% of gross pay contribution. There are year-end bonuses for all employees.
