

GEOTECHNICAL ENGINEER (MID-LEVEL)

Sevee & Maher Engineers, Inc. (SME) is an accomplished team of 50+ experienced and talented professionals providing civil and environmental engineering consulting services to commercial, industrial, municipal, and residential clients throughout the United States. SME combines strong technical expertise in hydrogeology and civil, geotechnical, environmental, wastewater, and chemical engineering with innovative technologies to provide cutting-edge solutions to our clients' 21st-century challenges.

At the heart of SME is a culture that is friendly and down to earth. SME is large enough to offer a full range of services but small enough that everyone on our team makes a difference. There is room to choose your own path and pursue your passions, and each person is recognized for their contribution to our collective success. SME supports and encourages professional development and active participation with professional associations.

Joining SME means becoming part of a group of dedicated professionals who enjoy doing meaningful work together. *Are you interested in a progressive and growing company that offers exceptional opportunities for your success?*

SME has a new full-time position for a **Geotechnical Engineer (Mid-Level)** at our headquarters in Cumberland, Maine.

Position Summary

As a multidisciplinary engineering firm, SME provides comprehensive planning, design, and construction oversight services. The Geotechnical Engineer participates in a diverse and dynamic portfolio of projects, such as solid waste disposal facility design, commercial site development, and riverine mitigation. Because there is no "typical" project at SME, the Geotechnical Engineer has the opportunity to work on a wide variety of assignments and real-world challenges. Many of SME's projects involve innovative designs for environmentally sensitive areas.

The ideal candidate will possess a high level of organizational skills that are well suited to keeping tasks on schedule and on budget. Because the Geotechnical Engineer works closely with SME's multidisciplinary staff and frequently interacts directly with clients, regulatory agencies, and the public, strong interpersonal and communications skills (written and verbal) are also important. At SME, we pride ourselves on building and maintaining very positive long-term relationships with all parties with whom we interact.

Required Qualifications and Skills

- M.S. degree in Geotechnical or Civil Engineering, with 5 to 15 years of related experience,
- Professional Engineer license,
- Experience performing geotechnical investigations, including drilling, field testing and sampling, instrumentation, and test pitting,
- Experience in the design and construction of embankments, landfills, and foundations,

(continued)

- Experience monitoring earthwork and foundation related construction,
- Ability with civil and site design and modeling software, including AutoCAD, HydroCAD, Slope/W and Seep/W is preferred,
- Effective oral and written communication skills are essential, and
- Willingness for occasional travel to project sites.

Compensation and Benefits

SME offers an excellent compensation and benefits package. The company pays 100 percent of Medical, Life, and Long-Term and Short-Term Disability insurance, and annually contributes to each employee's Health Savings Account. We provide paid vacation, holiday, and sick time. SME's retirement plan includes three components: a generous 401k plan; profit sharing; and a non-discretionary 3% of gross pay contribution. There are year-end bonuses for all employees.

Location

SME is based in Cumberland, just north of Portland, Maine. Perfect for a balance of work and play, we are located only minutes from ocean beaches, lakes, rivers, and mountains where you can conveniently access outstanding outdoor activities. If city life is more your style, the area offers fantastic shopping and dining options as well as a vibrant arts and entertainment scene.

Let's Connect!
